- 2 Why we help

Our cancer support services and advocacy fill a void in the healthcare system, a void that affects everyone touched by cancer.

- This space can be used for highlight campaigns so long as the language communicates the urgency of our work. For example, if making an announcement about the new CEO, the headline might read: "Welcome to the newest crusader in the fight to create a new model of patient centered care."

- 3 Manifesto

Pull phrases from the Manifesto to show that we serve the dayto-day concerns of people affected by cancer. This section serves to clarify what we do.

4 How we help

Here, we illustrate our process; we listen to our constituents and then create solutions based on this research. We strive to affect change on an individual, community and systemic level.

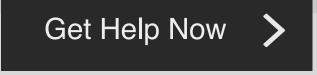

- 4a Challenge. This is a problem posed in the user's voice.
- Solution. We respond to these needs by offering a variety of programs and resources displayed by articles, videos and tools.
- 5 Our Impact

Illustrate LIVESTRONG successes paired with a representation of our legitimacy as an organization. This is where we show our positive impact on the lives of individuals and communities.
